AI Operations Specialist | GenAI Automation Engineer | eCommerce Operations Lead

PROFESSIONAL SUMMARY

AI Operations and eCommerce specialist with 5 years at Amazon Vendor Services — independently shipping production-grade GenAI systems while managing enterprise catalog operations across 8 European marketplaces. Shipped an 87-tool MCP server (Claude AI + enterprise APIs), enterprise RAG assistant (300–400 daily users), and Python automation delivering \$7,724 in verified savings — ranked Top 1% globally in an AI hackathon. German B2 certified, EU marketplace experienced, available in 30 days.

KEY NUMBERS

- Built 87 enterprise AI tools integrating Claude AI with enterprise APIs
- Developed enterprise RAG assistant used by 300–400 daily users
- Delivered \$7,724 verified annual operational savings through automation
- Ranked Top 1% globally (182/19,799 participants) in international AI hackathon
- Managed catalog operations across 8 European marketplaces
- Designed AI workflows reducing manual operational workload equivalent to 3+ full-time roles

TECHNICAL SKILLS

AI & GenAI

AWS Bedrock · RAG Pipelines · Claude AI · GPT-4 · Gemini 2.5 · MCP Protocol · Google ADK
Multi-Agent Orchestration · Prompt Engineering · Evaluation Pipelines · Agentic Workflow Design

eCommerce & PIM

Amazon Vendor/Seller Central · Catalog Management · Product Data Quality · Feed Syndication
EAN/GTIN/External Identifiers · Brand Registry · POs · A+ Content · Variation Management
Akeneo (PIM) · Google Merchant Center · JSON-LD / Schema.org · Image/Video Compliance

Programming

Python · Node.js · TypeScript · REST APIs · SQL · Git / GitHub · Linux CLI

Cloud

AWS (S3, Bedrock, QuickSight) · Google Cloud (Vertex AI, Cloud Run)

Tools

Slack Bolt API · Power BI · Profitero · Helium 10 · Flat File Templates · N8N · Kiro · Amazon Q

WORK EXPERIENCE

Amazon Vendor Services | Bengaluru, India | Jul 2021 – Present

Catalog Specialist ML (Senior Level)

Jul 2024 – Present

AI & Automation

- Built an 87-tool MCP server (Node.js + TypeScript) integrating Amazon enterprise catalog APIs with Claude AI — enabling natural-language queries, bulk attribute editing, and automated audit workflows. Reduced catalog investigation from minutes to seconds.
- Designed and deployed enterprise RAG assistant (Python + AWS Bedrock) serving 300–400 daily users — real-time SOP search across 59 documents, SLA breach alerting, AI-drafted vendor responses. Approved by Director-level leadership.
- Built AI response evaluation pipelines assessing response quality, hallucination rates, and safety compliance across production GenAI tools in an enterprise environment.
- Developed Amazon Catalog Assistant browser extension with Bedrock KB proxy backend — embedding LLM-powered search directly into live operator workflows via Node.js API layer.
- Designed multi-agent AI workflows automating multi-step operational decision-making processes, reducing manual workload equivalent to 3+ full-time roles.

eCommerce Operations

- Managed catalog quality for 200+ vendors/month across 8 European marketplaces (UK, DE, FR, ES, IT, NL, SE, BE) — resolving listing errors, EAN/GTIN conflicts, attribute issues, variation failures, brand registry escalations, and compliance flags.
- Led catalog syndication for a major global consumer brand — validated JSON-LD (schema.org). Achieved 100% Google Rich Results pass rate, zero validation errors, full TikTok Shop compliance.
- Delivered \$7,724 in verified annual cost savings through Python automation of catalog verification workflows — formally code-reviewed and approved by senior management.
- Handled full vendor onboarding lifecycle: EAN/external identifier mapping, PO reconciliation, content ingestion, image/video compliance review, and brand mapping/registry.
- Trained and mentored 10+ associates as internal AI enablement lead; facilitated live workshops demonstrating automation builds and agentic workflows to cross-functional teams.

Catalog Associate

Jul 2021 – Jun 2024

- Managed listing accuracy and data integrity across EU marketplaces — resolving suppressed listings, miscategorized ASINs, and variation family failures at scale.
- Built Python automation for catalog processing and ranking workflows, achieving 1.0 HC savings and improving SLA performance across multiple stakeholder teams.
- Conducted root-cause analysis on ML-assisted annotation and quality workflow defects — improving data accuracy at scale.

Concentrix BPO Private Ltd | Pune, India | Jun 2020 – Jul 2021

German Language Expert

Jun 2020 – Jul 2021

- Delivered customer support in German and English for EU marketplace clients.
- Facilitated monthly training sessions — 15% reduction in avg. chat resolution time. Promoted to senior role within the first year.

KEY PROJECTS

Enterprise Catalog MCP Server | Node.js · TypeScript · Claude AI · REST APIs · AWS

87-tool AI integration layer connecting enterprise catalog APIs with Claude AI. Covers product lookup, bulk attribute editing, relationship queries, catalog auditing, and compliance checks with secure enterprise auth. Cuts investigation from minutes to seconds.

AI-Powered Vendor Support Assistant | Python · AWS Bedrock · RAG · REST APIs

Enterprise RAG pipeline serving 300–400 daily users (59 documents). SLA alerting, live case data sync, AI-drafted responses. Approved by Director-level (L8) leadership.

Catalog Syndication Pipeline | *Python · JSON-LD · Schema.org · Google Merchant Center · TikTok Shop API*

Transformed enterprise product data into validated JSON-LD for a major global brand. 100% Google Rich Results pass rate, zero validation errors, full TikTok Shop compliance.

ElectaGuide (Prompt Wars v2 Hackathon) | *React 18 · FastAPI · Gemini 2.5 Flash · Google Cloud Run*

AI civic assistant in 8 languages. Ranked 182/19,799 globally top 1% of all participants worldwide. github.com/Sudheer-029/promptwars-v2

CERTIFICATIONS

- AWS Generative AI Learning Plan (Amazon Web Services)
- Prompt Design in Vertex AI (Google)
- Google Gemini for Google Workspace — Enterprise (Google)
- ChatGPT Prompt Engineering for Developers (DeepLearning.AI)
- Python by ICLeaF · SQL (LinkedIn)

PUBLICATION

Automating Quarterly Financial Analysis with Amazon QuickSight — AWS Builder Center (Apr 2026)

EDUCATION

Bachelor of Arts — Business/Managerial Economics | Distinction, First Grade

IEC University | 2016 – 2019
