eCommerce Manager | Marketplace Operations | Digital Commerce

PROFESSIONAL SUMMARY

Results-driven eCommerce Manager with 5 years managing enterprise online retail operations across Amazon, Google Merchant Center, and TikTok Shop — overseeing marketplace listings, catalog quality, order workflows, customer service, and performance reporting at scale. Proven ability to coordinate cross-functional teams (design, production, marketing, technical), manage multiple projects simultaneously, and drive measurable improvements in platform performance. Combines deep marketplace expertise with hands-on technical skills in Python, REST APIs, and AI-powered automation — delivering \$7,724 in verified operational savings and ranked Top 1% globally in an AI hackathon. Available for remote US business hours in 30 days.

KEY NUMBERS

- Managed 200+ vendor/seller accounts per month across 8 online marketplaces (Amazon UK, DE, FR, ES, IT, NL, SE, BE)
- Achieved 100% Google Rich Results pass rate and zero validation errors on major global brand catalog syndication
- Delivered \$7,724 in verified annual savings through eCommerce workflow automation
- Built AI-powered customer support system serving 300–400 daily interactions — approved by Director-level leadership
- Trained and mentored 10+ team members; reduced average resolution time by 15%
- Ranked Top 1% globally (182/19,799 participants) in international AI & eCommerce hackathon

CORE SKILLS

Marketplace Management: Amazon Seller/Vendor Central · Google Merchant Center · TikTok Shop · eBay-style Listings · Walmart-compatible Feed Formats

Website & Catalog Ops: Product Listing Optimisation · Feed Syndication · SEO (JSON-LD, Schema.org, Rich Results) · Image/Video Compliance · A+ Content

Order & Inventory: PO Reconciliation · Stock Availability Management · Order Lifecycle Tracking · Returns & Refund Workflows · Supplier Coordination

Customer Service: Multi-channel Support (Email · Chat · Escalation) · CSAT Management · SLA Tracking · CRM Platforms · Issue Resolution

Analytics & Reporting: Power BI · Profitero · Helium 10 · Google Merchant Center Analytics · Sales & Traffic Reporting · Conversion Analysis

Digital Marketing: SEO Best Practices · Google Rich Results · TikTok Shop Compliance · Feed-based Paid Ads · Social Commerce Integration

Technical: Python · REST APIs · Node.js · SQL · HTML/CSS-adjacent Web Integrations · JSON · Git · AWS · N8N Automation

Project Management: Multi-account Prioritisation · Cross-functional Coordination · Scope & Timeline Management · Stakeholder Communication

WORK EXPERIENCE

Amazon Vendor Services | Bengaluru, India | Jul 2021 – Present

eCommerce Operations Manager / Catalog Specialist ML (Senior Level)

Jul 2024 – Present

Marketplace & Listing Management

- Managed product listings, catalog quality, and marketplace compliance for 200+ vendor accounts per month across 8 Amazon EU marketplaces — ensuring listings were accurate, optimised, and live across all platforms.
- Resolved listing errors, suppressed products, EAN/GTIN conflicts, variation failures, and brand registry escalations — preventing revenue loss and improving platform health scores.
- Executed catalog syndication for a major global consumer brand across Google Merchant Center and TikTok Shop — achieving 100% Rich Results pass rate, zero validation errors, and full platform compliance.
- Applied SEO best practices (JSON-LD, Schema.org, keyword-optimised titles/descriptions) to improve organic search visibility and product discoverability across marketplaces.
- Utilised Helium 10 and Profitero to monitor marketplace performance metrics — tracking sales trends, traffic, competitive pricing, and listing health to guide optimisation decisions.

Order Processing, Inventory & Supplier Coordination

- Managed PO reconciliation and order lifecycle tracking for vendor accounts — coordinating between vendors, fulfilment teams, and internal operations to ensure accurate, timely delivery.
- Monitored stock availability, flagged replenishment needs, and coordinated restocking workflows with vendor supply chains — minimising out-of-stock events on live marketplace listings.
- Resolved order-related issues including cancellations, returns, refunds, and compliance disputes — maintaining high vendor satisfaction and SLA adherence across managed portfolio.

Customer Service & Account Management

- Served as primary point of contact for 200+ enterprise vendor accounts — managing daily communication via email, CRM platforms, and Slack with clarity, accuracy, and responsiveness.
- Built AI-powered vendor support assistant (Python + AWS Bedrock) serving 300–400 daily client interactions — real-time SOP search, SLA alerting, AI-drafted responses. Approved by Director-level (L8) leadership.
- Gathered and analysed client feedback to identify recurring pain points — implementing process improvements that reduced repeat escalations and improved overall client satisfaction.

Reporting, Analytics & Cross-functional Delivery

- Prepared detailed performance reports on marketplace sales, listing health, traffic, and conversion metrics using Power BI and Profitero — delivering data-driven recommendations to leadership.
- Coordinated design, production, marketing, and technical teams to ensure accurate, on-time delivery of catalog and platform projects across all marketplaces — managing scope, priorities, and stakeholder alignment.
- Delivered \$7,724 in verified annual operational savings through Python automation of catalog verification and reporting workflows — formally code-reviewed and approved by senior management.
- Trained and mentored 10+ team members on platform tools, listing workflows, and automation; facilitated cross-functional workshops on eCommerce operations best practices.

eCommerce Catalog Associate

Jul 2021 – Jun 2024

- Managed listing accuracy, product data integrity, and marketplace compliance across EU Amazon platforms — resolving suppressed listings, miscategorised ASINs, and variation family failures at scale.
- Built Python automation for catalog processing, ranking workflows, and performance reporting — delivering measurable SLA improvements across multiple stakeholder teams.
- Conducted root-cause analysis on ML-assisted annotation and quality defects — improving data accuracy and reducing customer-facing listing errors.

Concentrix BPO Private Ltd | Pune, India | Jun 2020 – Jul 2021

Senior Customer Service Specialist — German & English

Jun 2020 – Jul 2021

- Delivered multi-channel customer service (chat, email, phone) in German and English for EU eCommerce marketplace clients — managing inquiries, order issues, returns, and escalations.
- Reduced average chat resolution time by 15% through monthly team training sessions focused on communication quality and first-contact resolution.
- Promoted to senior role within the first year based on consistent CSAT performance and quality scores.

KEY PROJECTS

Catalog Syndication Pipeline | Python · JSON-LD · Google Merchant Center · TikTok Shop API

Transformed enterprise product data for a major global brand into validated JSON-LD — 100% Google Rich Results pass rate, zero validation errors, full TikTok Shop compliance.

AI-Powered eCommerce Support Assistant | Python · AWS Bedrock · RAG · REST APIs

Automated vendor support for 300–400 daily interactions — real-time SOP retrieval, SLA alerting, AI-drafted responses. Reduced resolution time and approved by Director-level leadership.

Catalog Automation & Reporting Workflows | Python · Power BI · REST APIs

Automated catalog verification, data quality checks, and performance reporting — delivered \$7,724 verified annual savings. Approved by senior management.

Enterprise Catalog MCP Server | Node.js · TypeScript · Claude AI · REST APIs

87-tool AI platform integrating enterprise catalog APIs with Claude AI — enabling bulk listing edits, compliance checks, and performance queries via natural language.
